# RIGHTSIDE DESIGN

Rightside Design began as a small, family-run company passionate about sea life. Our inspiration comes from the beauty of coastal living, as we immerse ourselves in the sights, sounds, and life found along the shores and beyond. Our limited-run designs capture the textures, colors, and shapes of the natural world. We take pride in offering our customers products that connect their homes to their outdoor surroundings.

# ANATOMY OF OUR OUTDOOR PILLOWS

## WHY OLEFIN PERFORMANCE FABRICS?

Olefin is considered a durable environmentally friendly alternative to polyester or acrylic outdoor fabrics. The manufacturing process creates very little waste, turning what was once burned off as waste into the synthetic fibers used to produce the material. Olefin is not only eco-friendly, but wicks moisture, resists staining and fading, and can even be cleaned with bleach as needed.

Simply put, this fabric is outdoor tough.

# OUTDOOR PILLOWS

A. Blue Parlor Palm

Weather, fade, and stain resistant, quick drying, durable, and easy maintenance, our olefin pillows make a practical and long-lasting choice for enhancing the comfort and aesthetics of outdoor seating areas while withstanding the challenges of outdoor conditions.
